Mäurer et. al 2007

Table S9 – LACK Calculations Downregulated Genes

Supplementary Table 9

```
Cluster     SGL     Hits  Size  Hits                 p-value
12          42      19    754   104   (P>=19)        <0.01
11          48      31    754   104   (P>=31)        <0.01
10          80      21    754   104   (P>=24)        <0.01
9           50      0     754   104   (P>=0)         =1.00
8           86      12    754   104   (P>=12)        =0.53
7           34      3     754   104   (P>=3)         =0.87
6           55      3     754   104   (P>=3)         =0.98
5           65      6     754   104   (P>=6)         =0.90
4           64      3     754   104   (P>=3)         =0.99
3           53      1     754   104   (P>=1)         =0.99
2           142     1     754   104   (P>=1)         =0.99
1           34      1     754   104   (P>=1)         =0.99
```
