

Christoph Bruch, Anja Lengenfelder

Open Access Unit
Max Planck Digital Library

Open access at Max Planck Society

Presentation at
MPI for Psychiatry
Munich, 31 January 2008

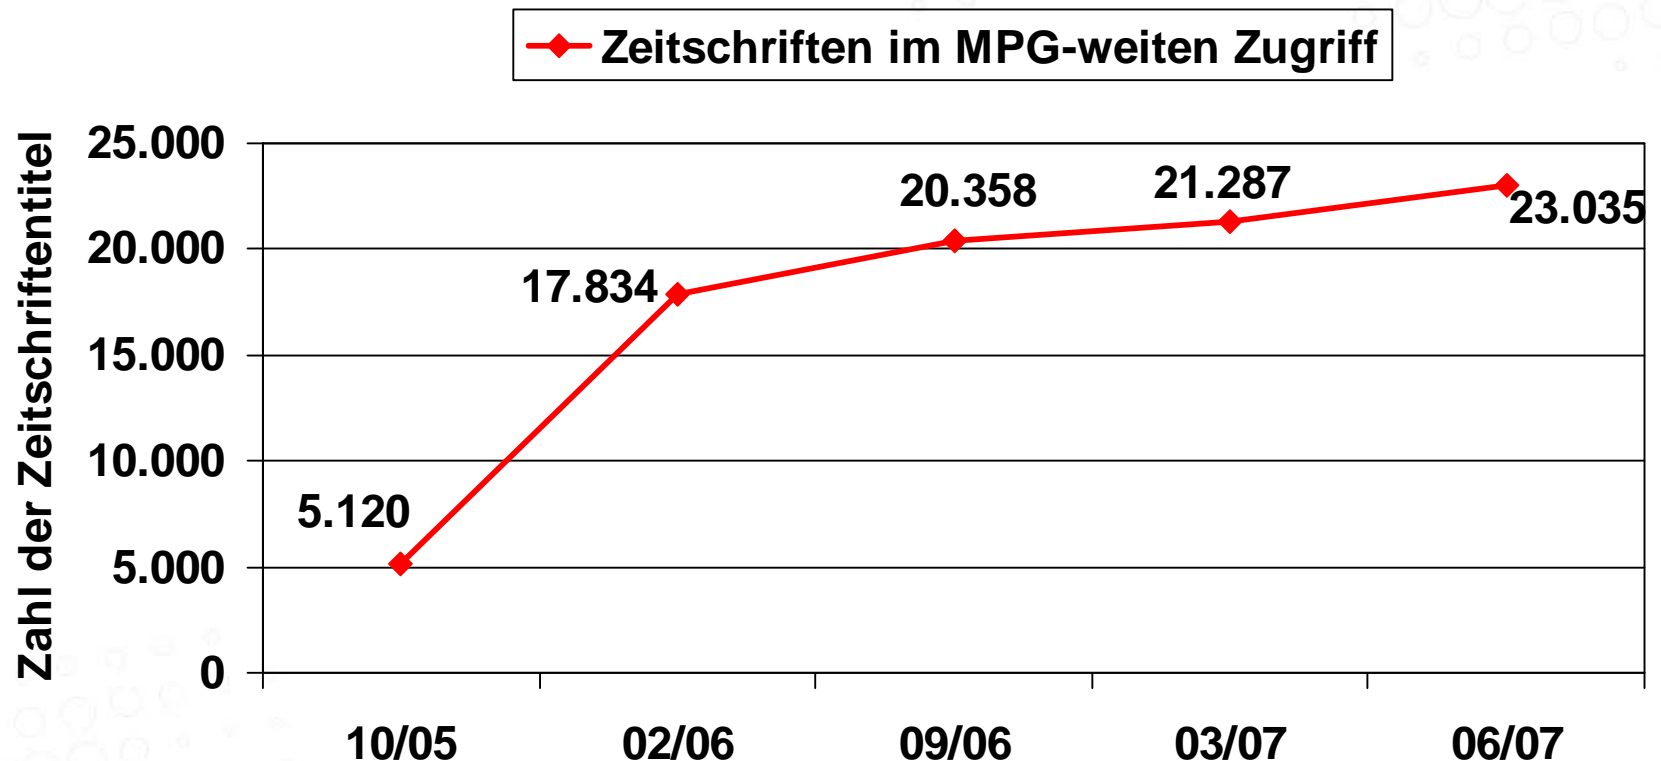

Overview

1. Introduction of the Max Planck Digital Library (MPDL)
2. Open Access Activities
3. New German copyright law (§ 137I)
4. Open Access: How to publish OA compatible
5. Links

1. Introduction of Max Planck Digital Library (MPDL)

2.2.4 Development of eJournal provision

1.2 Open Access

**Berlin 5 Open Access:
From Practice to Impact**

- Christoph Bruch and Anja Lengenfelder co-ordinate the Open Access activities of MPDL
- Co-operation with MPIs
 - Data archiving
 - Access to cultural heritage
 - Max Planck Open Access Network
 - Workshops on legal questions (in April and October)
- Focus on policy making and internal/external communications
- Raising awareness of Open Access (Internet, Flyer, presentations)
- Preparation of and attendance at conferences, e.g. Berlin Conferences
- Support of the signatories of the Berlin Declaration (Database)

2. Open Access Activities

2.1 Definition

2.2 Green Road

2.3 Golden Road

2.4 Open Access Platform

2.1 Definition Open Access

Berlin Declaration (2003) claims

„...free, irrevocable, worldwide, right of access to, and a license to copy, use, distribute, transmit and display the work publicly and to make and distribute derivative works, in any digital medium for any responsible purpose....“

2.2 Green Road

2.2.1 Green Road: eDoc

- Institutional Repository of the Max Planck Society, sponsored by Heinz Nixdorf Center for Information Management, moved into MPDL
- Already provides Open Access functionalities
- More function, e.g. copyright management, will be offered by next version (PubMan)

2.2.2 Green Road eDoc: OA Full Texts per Section

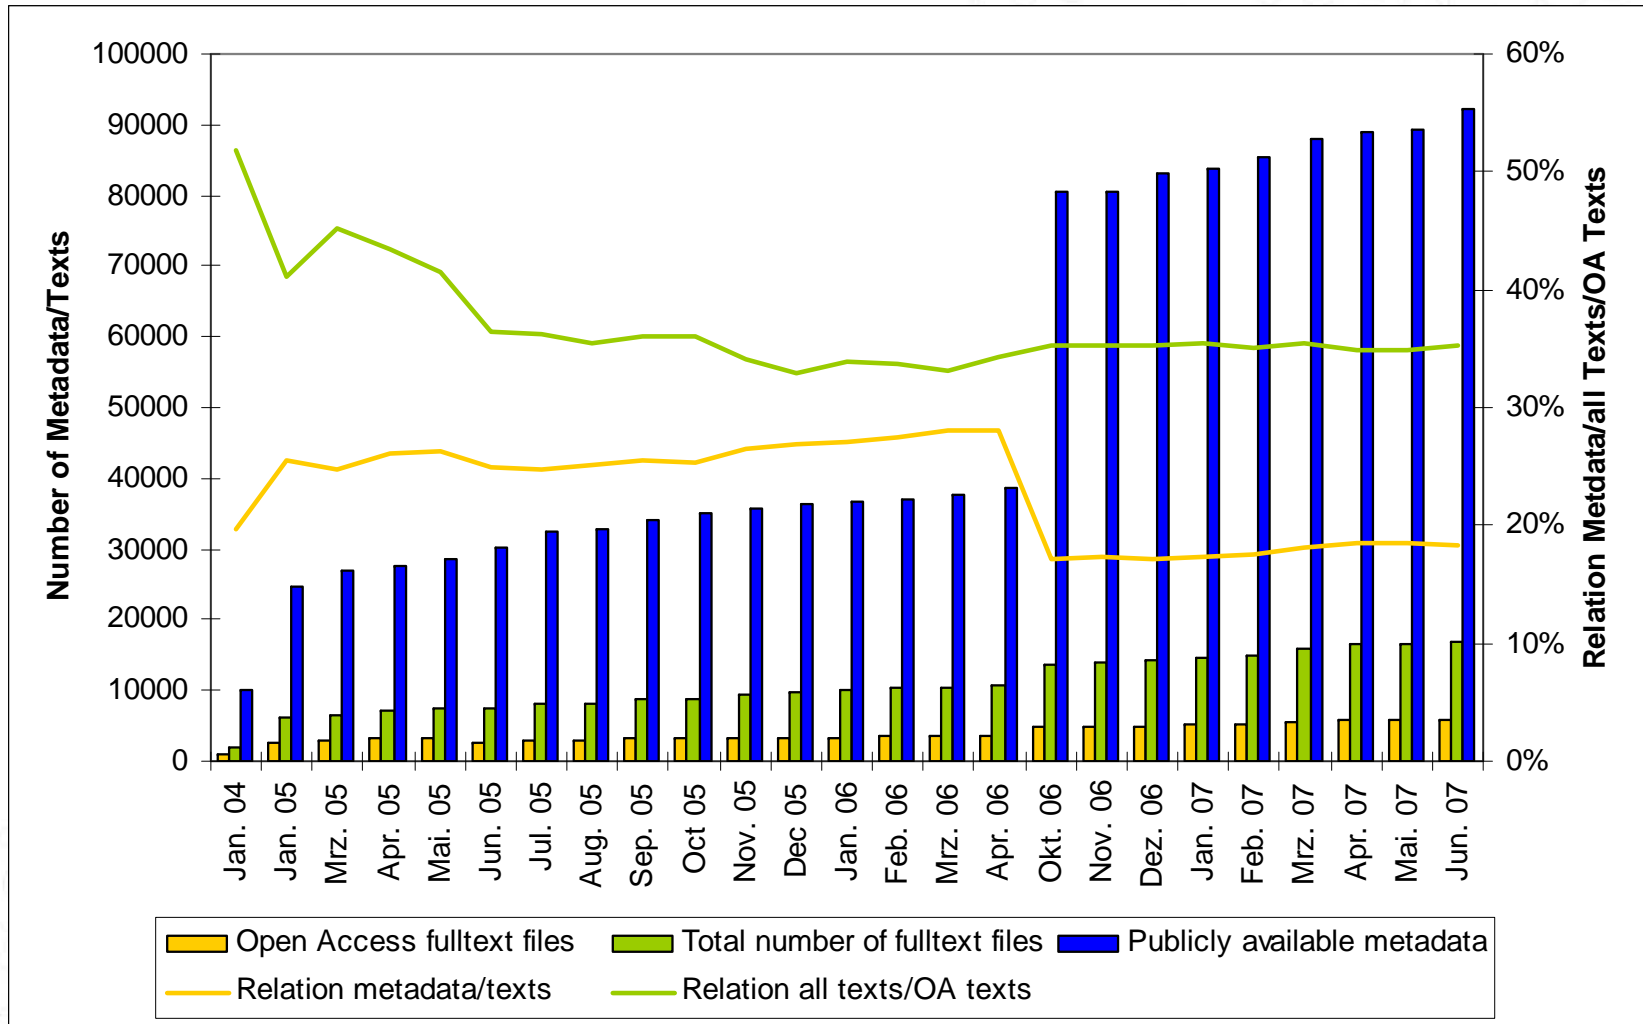

77% der Volltexte entstammen der CPT Sektion

17% der Volltexte stellt die GSHS

6% die BM Sektion

2.2.3 Green Road eDoc: Development of meta data and full text input

2.3 Golden Road

2.3.1 Golden Road

- MPDL is following two strategies:
- Article charge agreements:
 - Consortia -> Publisher: e.g. SCOAP³
 - MPS -> Publisher:
 - New Journal of Physics (concluded)
 - BioMed Central (concluded)
 - EGU/Copernicus (concluded)
 - Springer (concluded)
 - PLoS (conclusion this year)
 - Thieme (first talks)
 - MPS OA Journals
 - Living Reviews

2.3.2 Golden Road - SCOAP³

SCOAP³ (=Sponsoring Consortium for Open Access Publishing in Particle Physics)

International initiative, co-ordinated by CERN (Europ. Org. for Nuclear Research)

Aim:

- 100% OA of all HEP (=High Energy Physics) articles + preserve established journal “landscape” and its quality standards (peer-review)
- 5 „core“ and 1 „broadband“ journals (sponsoring model, hybrid model)
- Re-direct money spent on subscription to SCOAP³
- Long-term archiving of HEP publications

Background:

- Small community (15000 scientists in total)
- Few HEP journals (10)
- Long OA tradition (www.arxiv.org)

2.4 Open Access Platform: Max Planck Society Branch

- One stop shop for information on Open Access in Germany
- Online since May 2007
- DFG sponsored project of 4 German university libraries
- Additional support by several institutions, e.g. MPS
- Selection by subject possible
- English version is planned
- <http://open-access.net>

Begrüßung
Inhaltsübersicht

Open Access in der Max-Planck-Gesellschaft
Berliner Erklärung | Urheberrecht | Gesetzgebung | Kooperation

WILKENS: Die Max-Planck-Gesellschaft ist eine der größten und einflussreichsten finanzierten Forschungsinstitutionen in Deutschland. Es ist zentraler Anspruch der Max-Planck-Gesellschaft, die von ihren Wissenschaftlerinnen und Wissenschaftlern gemachten Entdeckungen und Forschungsergebnisse zum Nutzen der gesamten Menschheit möglichst breit verfügbar zu machen.

Durch den Beschluss der unter anderem von der Max-Planck-Gesellschaft initiierten Berliner Erklärung im Jahr 2003 wurde die Open Access Bewegung in Deutschland und Europa in vollem Gange gesetzt.

Mit ihrer Präsenz innerhalb dieser Plattform möchte die Max-Planck-Gesellschaft betonen, wie wichtig der Open Access Gedanke innerhalb ihres Leitbildes ist.

Zum Seitenanfang

Open Access wird innerhalb der Max-Planck-Gesellschaft an vielen Stellen praktiziert

Freie Universität Berlin

Universität Konstanz

GEORG-AUGUST-UNIVERSITÄT GÖTTINGEN

Universität Bielefeld

3. New German Copyright Act: § 137I

- The use right for online publication of print publications of the period starting 1966 and ending 1994 with where published by German publishers are mostly still owned by the authors.
- This right is to be transferred to the publisher by an automatism started by an amendment to the German copyright act.
- The author can stop this automatism.
- This is a great opportunity to transfer a simple right for online publication of your old articles to MPS

4. Open Access: How to publish OA compatible

- According to eDoc
Pharmacopsychiatry
Is the most popular journal with the researchers from the MPI of Psychiatry
- What does the website of the journal tell us about the journal's open access policy?

4.1 OA Publishing: Pharmacopsychiatry website

Pharmacopsychiatry

Official Organ of "Arbeitsgemeinschaft Neuropsychopharmakologie und Pharmakopsychiatrie (AGNP)

Editor-in-Chief
Prof. Dr. Walter E. Müller, Frankfurt

aims and scope

Covering all new advances in psychotropic drugs, **Pharmacopsychiatry** provides psychiatrists and pharmacologists with key clinical insights and new avenues of research and treatment. The pharmacological, neurophysiological, and psychological basis of psychiatric disorders are explored using models and model theory as applied to clinical and experimental studies.

Plus, reports of controlled clinical trials, case reports, and meeting proceedings serve as a state-of-the-art tool for advancing the field and setting European standards.

Includes sections on:

- Psychiatry/Gerontopsychiatry
- Pharmacology/Clinical Pharmacology
- Neuro and Psychophysiology
- Psychology and Neurobiology

Pharmacopsychiatry
Clinical Pharmacology - Psychiatry - Psychology - Neurophysiology - Neurobiology - Gerontopsychiatrie

No Information about the copyright policy

Let's have a look at the Sherpa Romeo list

SHERPA ... opening access to research
[Home](#) | [Guidance](#) | [Repositories](#) | [Projects](#) | [Links](#) | [About](#) | [Contacts](#)

Award winning SHERPA is investigating issues in the future of scholarly communication. It is developing [open-access](#) institutional repositories in universities to facilitate the rapid and efficient worldwide dissemination of research.

SHERPA Services

- [RoMEO](#) - Publisher's copyright & archiving policies
- [JULIET](#) - Research funders archiving mandates and guidelines
- [OpenDOAR](#) worldwide Directory of Open Access Repositories
- [SHERPA Search](#) - simple full-text search of UK repositories

SHERPA Resources

- [Forthcoming Events](#) - Including speaking engagements
- [Guidance](#) on depositing material; copyright; and [open access for authors](#)
- [Advocacy Materials](#) for administrators, including past SHERPA presentations
- [Links](#) to other initiatives and related background information

Current SHERPA & Allied Projects

- [RSP](#) (Repositories Support Project) - support service for UK repository growth
- [DRIVER](#) - developing a cross-European repository network infrastructure
- [UKCoRR](#) - United Kingdom Council of Research Repositories
- [Intute: Repository Search](#) - searches across 86 UK academic repositories
- [The Depot](#) a keep-safe repository for UK academics
- [SHERPA DP 2](#) - continuing to look at preservation models
- [SHERPA/RoMEO](#) - listing publishers' copyright agreements

- [White publishers](#)

[What the colours mean.](#)

This service is maintained by SHERPA, with support from [JISC](#) and the [Wellcome Trust](#). It is a development of the original journal publishers' listings produced by the [RoMEO Project](#). Journal information is kindly provided by the British Library's [Zetoc](#) service hosted by MIMAS. The information held here is available for use by third-parties under [conditions for re-use](#) and a Creative Commons licence. See a [list of sites](#) that are already using RoMEO data. A [prototype API](#) is available and being developed for m2m access: for example to be integrated into a repository's deposit process. [Statistics](#) are available for RoMEO colours allocated to the publishers in this list. [Contact us](#) for further information.

Publisher information is updated by our collaborative colleagues ([SHERPA Partners](#), [DINI](#), and [Nereus](#)) and through community contributions - please submit any updates using the link provided on the search results pages. If a publisher is not listed here you may wish to [recommend that we include it](#). Please note that these listings refer to journal publications and not to book publications. Consult the publishing contract, or contact publishers directly for their self-archiving policies for book chapters.

Please note that general use of the terms pre-print and post-print can vary: these lists follow accepted definitions for self-archiving purposes. These listings are primarily for the use of the academic research community and any information given is from this perspective.

All information is correct to the best of our knowledge but should not be relied upon for legal advice.

A search for Pharmacopsychiatry brings you here:

Publisher copyright policies & self-archiving

One journal found when searched for **Pharmacopsychiatry**.

Journal: **Pharmacopsychiatry** (ISSN: 0176-3679)
 Publisher: **Georg Thieme Verlag**

These summaries are for the publishers *default* policies and changes or exceptions can often be negotiated by authors.
All information is correct to the best of our knowledge but should not be relied upon for legal advice.

Publisher:	Georg Thieme Verlag
Pre-print:	<input checked="" type="checkbox"/> author cannot archive pre-print (ie pre-refereeing)
Post-print:	<input checked="" type="checkbox"/> subject to Restrictions below author can archive post-print (ie final draft post-refereeing)
Restrictions:	<ul style="list-style-type: none"> 12 months
Conditions:	<ul style="list-style-type: none"> Institutional Repository (including PubMed Central) Publisher's version/PDF cannot be used Publisher copyright and source must be acknowledged Link to Publisher version (www.thieme-connect.com) must be included if article has been published online
Mandated OA:	<input checked="" type="checkbox"/> Wellcome Trust (Unacceptable embargo); <input checked="" type="checkbox"/> BBSRC (Compliant - see conditions); <input checked="" type="checkbox"/> DFG (Compliant); <input checked="" type="checkbox"/> ERC (Compliant); <input checked="" type="checkbox"/> FWF (Compliant); <input checked="" type="checkbox"/> HHMI (Compliant); <input checked="" type="checkbox"/> MRC (Unacceptable embargo); <input checked="" type="checkbox"/> NHMRC (Compliant)
Copyright:	View policy in German or English
RoMEO:	This is a RoMEO white publisher
Update:	suggest update for this record

Journal allows self-archiving after an embargo of twelve months

Finally from Sherpa you are linked to this PDF:

The screenshot shows a Mozilla Firefox browser window. The address bar contains the URL http://www.thieme.de/fz/_pdf/thieme_ir_policy_english.pdf. The browser's toolbar shows navigation buttons, a search bar with the text 'Suchen', and a zoom level of 75%. The main content area displays the title 'Thieme's Policy Regarding Institutional Repositories' and the Thieme logo. The text below the title states: 'Georg Thieme Verlag KG and the publishers that belong to the publishing group (the "Thieme Publishing Group") allow authors to self-archive their journal articles on a server under the following terms and conditions.'

Thieme's Policy Regarding Institutional Repositories

Georg Thieme Verlag KG and the publishers that belong to the publishing group (the "Thieme Publishing Group") allow authors to self-archive their journal articles on a server under the following terms and conditions.

1. Definitions

Accepted Version
The version of the manuscript that was accepted for publication in a journal following peer review, i.e. including all the changes made in the course of the peer review.

Published Journal Article
The version of the article published in a Thieme journal (online or print), which includes the journal name, publisher's name, and a DOI.

Supplemental Data
Electronic files that accompany a Published Journal Article but do not appear in print, such as multimedia files, software routines, extended proofs.

Institutional Repository
An Institutional Repository is a set of online services that an institution (acting alone or in collaboration with others) offers for the management and dissemination of research material or other intellectual property created by the institution and its community members.

2. Rules and Regulations

2.1. As a general principle, Thieme Publishing Group will not accept material for publication
