Received 2015 April 9; accepted 2015 April 21; published 2015 May 21

The names of the pulsars in our publication were based on the position of the PALFA survey beam in which each pulsar was discovered rather than their refined, pulsar-timing measured positions, as they should have been. Their names thus do not correspond to their actual right ascensions and declinations. Their correct names are: PSR J0557+1550, PSR J1850+0242, PSR J1901+0300, PSR J1904+0451, and PSR J1943+2210. We are grateful to Dick Manchester for pointing out this oversight to us.
