RADAR – RESEARCH DATA REPOSITORY

RADAR (**R**esearch **D**ata **R**epository) is a

- cross-disciplinary research data repository
- for the archival and publication of research data
- of completed scientific studies and projects.

Funded by DFG from September 2013 until August 2016

No competition with established disciplinary data repositories

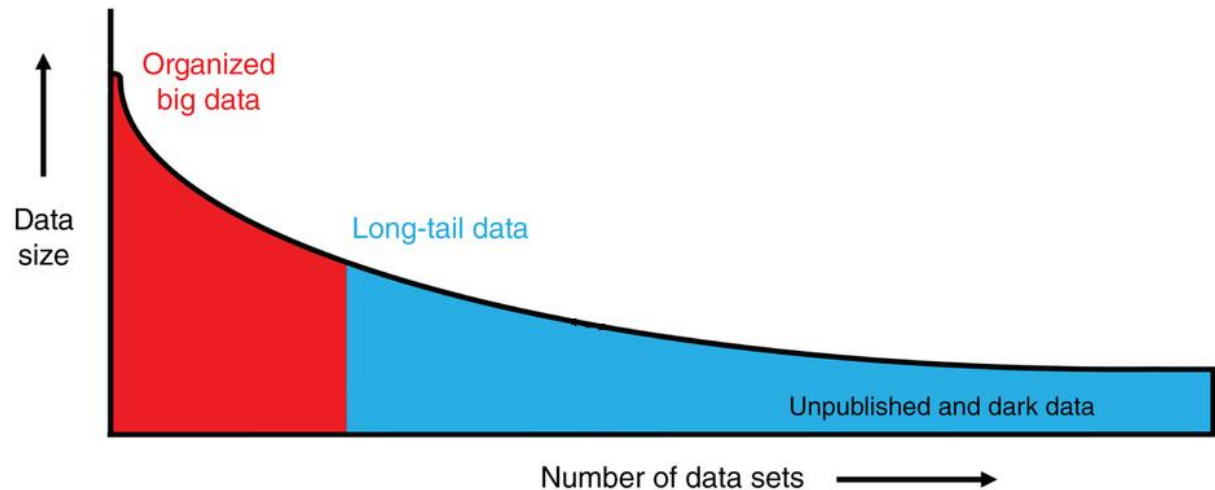

- Emphasis on „Long tail“

THE ‚LONG TAIL‘ IS RELEVANT

“The majority of datasets produced through research are part of the ‘Long Tail of Research Data’”

Source: Humphrey C (2014): OpenAIRE-COAR Conference, Athens

Source: Ferguson et al. (2014): Big data from small data: data-sharing in the 'long tail' of neuroscience. DOI: 10.1038/nn.3838

COOPERATION PARTNERS

Consulting service, marketing and publicity (together with FIZ Karlsruhe)

Data storage and IT infrastructure

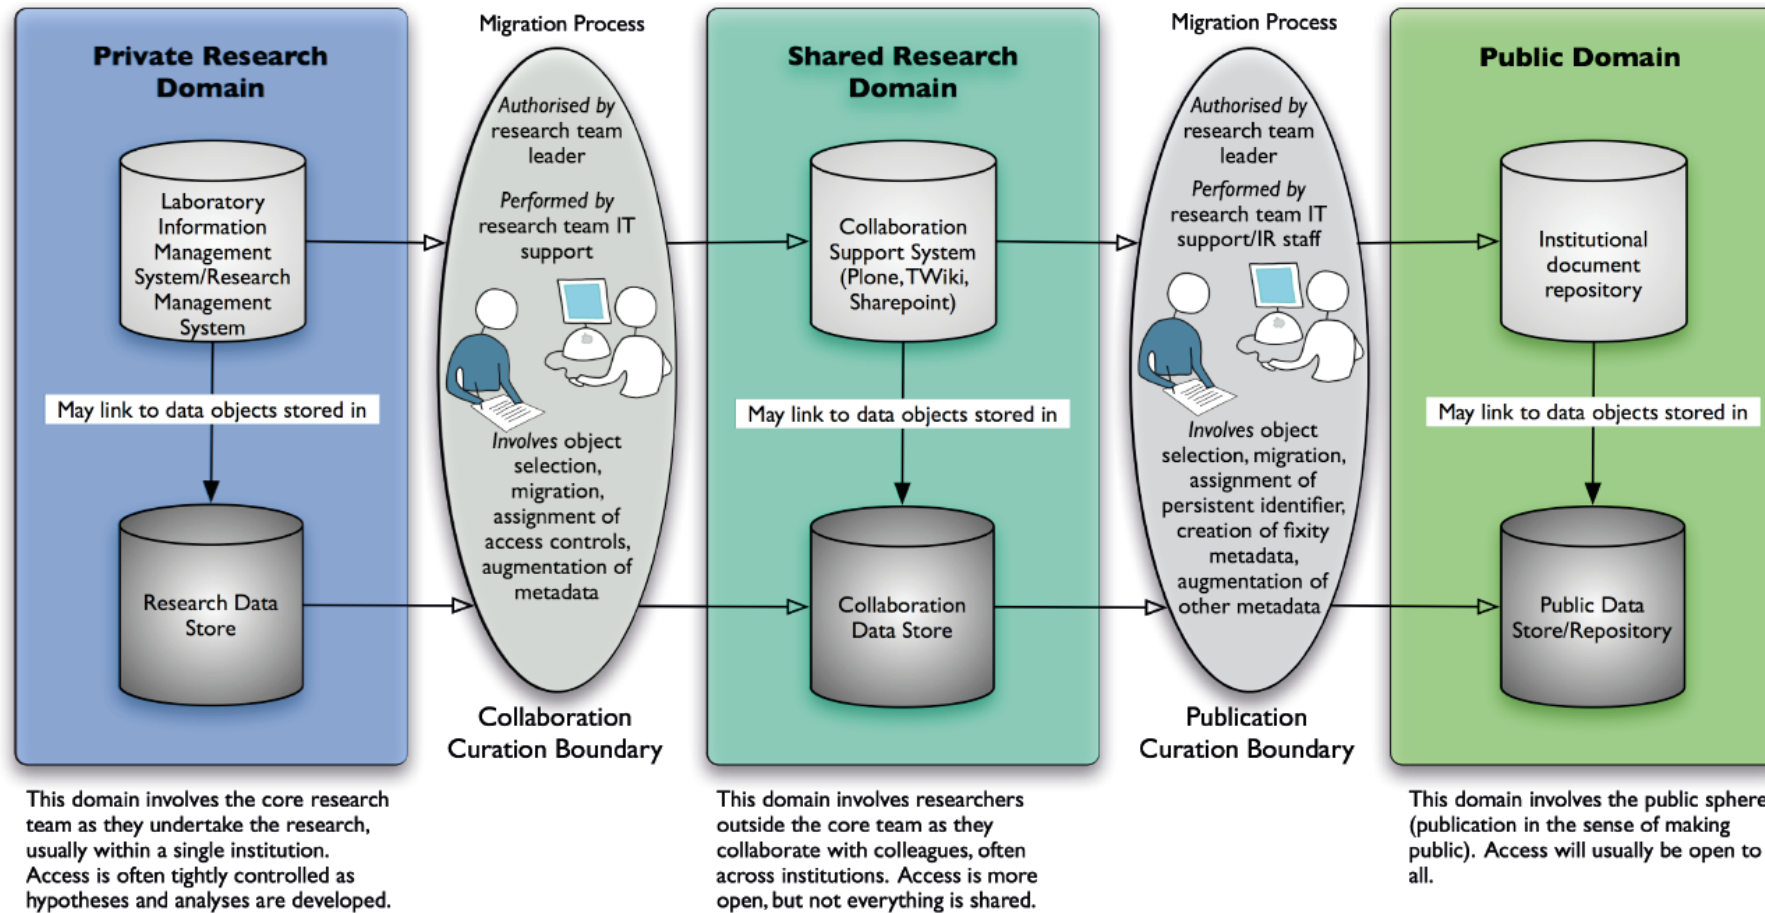

Data storage

Registration of DOI

DATA LIFECYCLE AND FOCUS OF RADAR

Version 1.4, <http://andrew.treloar.net/>, 07Dec07

RADAR SERVICE LEVELS

Data Archival

- „dark archive“
- Flexible retention period (5, 10, 15 years)
- Data providers control access rights (private/shared/public)

Quelle: Wikipedia Commons, Simon A. Eugster. CC 3.0 BY SA

Data Archival with Publication

- Unlimited retention period (25+ years)
- Optional embargos
- DataCite DOI
- Interface for peer review
- Choice of licenses, no CC0 required
- Metadata indexed, e.g. by RADAR, DataCite, Clariavate, Google

DATA SECURITY

- For each dataset, a checksum is calculated upon ingest
- The checksum is re-calculated after writing to tape ('read after write')
- Three copies at three locations (2x Karlsruhe, 1x Dresden)
- Different hardware, software and administration
- Routine migration of data to new storage media, including fixity check

Quelle: SCC, Karlsruher Institute for Technology (KIT)

LEGAL ISSUE

- For offers with costs, liability for cardinal obligations cannot be limited (when using standardized contracts)
 - Liability risks include loss or corruption of archived data
 - The monetary value of research data is hard to calculate, therefore little indication of the amount of damage
 - Nearly impossible to find an insurance willing to cover such a risk
- Organizational and technical solution to minimize risks

Quelle: Wikimedia Commons/User Walknboston, CC-BY-SA 2.0

SUMMARY

Within the scope

- Data of completed research projects
- Bitstream preservation
- Three copies, two data centers
- 25+ year retention phase for published data
- ‘Long-tail’ data

Outside of the scope

- Management of active data
- Data curation
- Functional long-term preservation
- Regular fixity checks
- Insurance
- No ‘big data’ disciplines

PRICING

FIXED COSTS PER ANNUM

Personnel costs (24 PM EG 13)

- Program Manager (12 PM) 132,000.00 €
- System administration (3 PM) 33,000.00 €
- Software maintenance and development (9 PM) 99,000.00 €

Material costs

- Temporary storage 1,694.00 €
 - Virtual machines 10,648.00 €
 - Licenses and maintenance contracts 1,000.00 €
 - Travel expenses 10,000.00 €
 - Information materials 5,000.00 €
 - Other 5,000.00 €
-
- 297,342.00 €

FIXED COSTS PER ANNUM

Personnel costs (24 PM EG 13)

• Program Manager (12 PM)	132,000.00 €
• System administration (3 PM)	33,000.00 €
• Software maintenance and development (9 PM)	99,000.00 €

Material costs

• Temporary storage	1,694.00 €
• Virtual machines	10,648.00 €
• Licenses and maintenance contracts	1,000.00 €
• Travel expenses	10,000.00 €
• Information materials	5,000.00 €
• Other	5,000.00 €
	<hr/>
	165,342.00 €

VARIABLE COSTS

Archive storage (Tape) – per annum and GB	0,18 €
Temporary storage – per annum and GB	0,42 €
Additional virtual machine – per annum (currently none)	2.662,00 €

TARGET GROUPS

- Universities and research institutions
 - Institutional offering for research data management
 - Integration with existing institutional portals
- Researchers
 - Publication and archiving of research data from projects
- GLAM (cultural heritage)
 - Long-term preservation of digitized materials (master scans)
 - Access copies for online access

POTENTIAL MARKET

427 universities and colleges in Germany, of which ~250 produce research data (2015/16)

- ~1000 research institutions outside of universities (2014)

Source: destatis

Goal for the first five years:

- 30 contracts
- 1 PB (= 1 million GB) of archived/published data

Quelle: Wikimedia Commons/Ildar Sagdejev, CC-BY-SA 3.0

PROJECTIONS

	Year 1	Year 2	Year 3	Year 4	Year 5
Number of contracts	3	8	13	20	30
Data volume	13 TB	51 TB	205 TB	484 TB	911 TB
Costs	167,157 €	169,831 €	172,570 €	175,372 €	178,240 €
Revenues	4,247 €	15,885 €	55,343 €	132,101 €	258,242 €
Marginal return	- 162,910 €	- 153,946 €	- 117,227 €	- 43,271 €	80,002 €

PRICING

PRICING FOR ARCHIVAL

Fixed costs	0,17 €
Variable costs	0,18 €
Risk loading	0,04 €
VAT	0,07 €
per year/GB	0,46 €

Additional yearly service charge of 500.00 € (net price) per contract includes

- Temporary storage of 200 GB
- Contract management and invoicing

PRICING FOR DATA PUBLICATION (ONE-TIME PAYMENT)

Fixed costs	1.13 €
Variable costs	2.97 €
Risk loading	2.27 €
VAT	1.21 €
25+ years/GB	7.58 €

- Personnel costs are included for the first five years only
- Increased risk loading of 200%
- **34,7 % discount** (7.58 € instead of $25 \cdot 0.46 \text{ €} = 11.50 \text{ €}$ per year/GB)

FURTHER EVOLVEMENT OF BUSINESS PLAN

- Discount for data volumes > 50 TB
- Offer for consortia
- Open source with maintenance contracts
- Local storage of one copy/all copies
- One-time payment for archived data
- Annual fee for published data
