

Working Group

“Digital tools — software and services”

...of the priority initiative „Digital Information“
of the Alliance of German Research
Organisations

Michael Franke, Max Planck Digital Library

The Alliance

Partner organizations

The big German science organizations form the “Alliance of German Science Organizations” with the aim to join forces in giving advice.

Goals

- Guidelines für software development in scientific organisations
- International cooperations
- Advancement of women in scientific software development
- Guide to software services
- Integration of software into the guidelines for good scientific practice (DFG)
- Parliamentary lunch
- Participation in deRSE conference
- Networking
- Career paths
