

Correction

Correction to article “Using natural variation to achieve a whole-plant functional understanding of the responses mediated by jasmonate signaling”

Ray, R., Li, D., Halitschke, R. & Baldwin, I.T. (2019) Using natural variation to achieve a whole-plant functional understanding of the responses mediated by jasmonate signaling. *Plant Journal*, 99, 414–425.

After a review by the Max Planck Institute for Chemical Ecology, the authors and the Max Planck Institute for Chemical Ecology agree to add a co-author ‘Klaus Gase’ to the author byline and to update the contribution details. The correct order of authors in the author byline is as follows:

Rishav Ray, Dapeng Li, Rayko Halitschke, **Klaus Gase**[§], and Ian T. Baldwin.

[§]Department of Molecular Ecology, Max Planck Institute for Chemical Ecology, Germany

The correct AUTHOR CONTRIBUTIONS section is as follows:

All authors contributed to the writing and revising of the paper. KG developed the concept and the required crossing schemes for the MAGIC population. He organized and supervised the creation of this population. He created Fig. 3(b)–(d).

We apologize for the error.
