

# Open Science Sommer School

Why I initially signed up, my main takeaways, and what I found particularly positive or challenging

---

# Why signing up for OS sommer school?

Transparency and  
reproducibility in  
research

Unlimited access to  
knowledge

Acceleration of  
scientific progress by  
sharing knowledge

Addressing the  
replication crisis in  
science

Strengthening public  
trust in science

# What was positive?

Realization of  
Importance

Interdisciplinary  
Exchange

In-depth  
Discussions

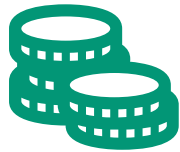

Preregistration

# Upcoming challenges?

Cultural  
Change

Financial  
Aspects

Quality  
Assurance

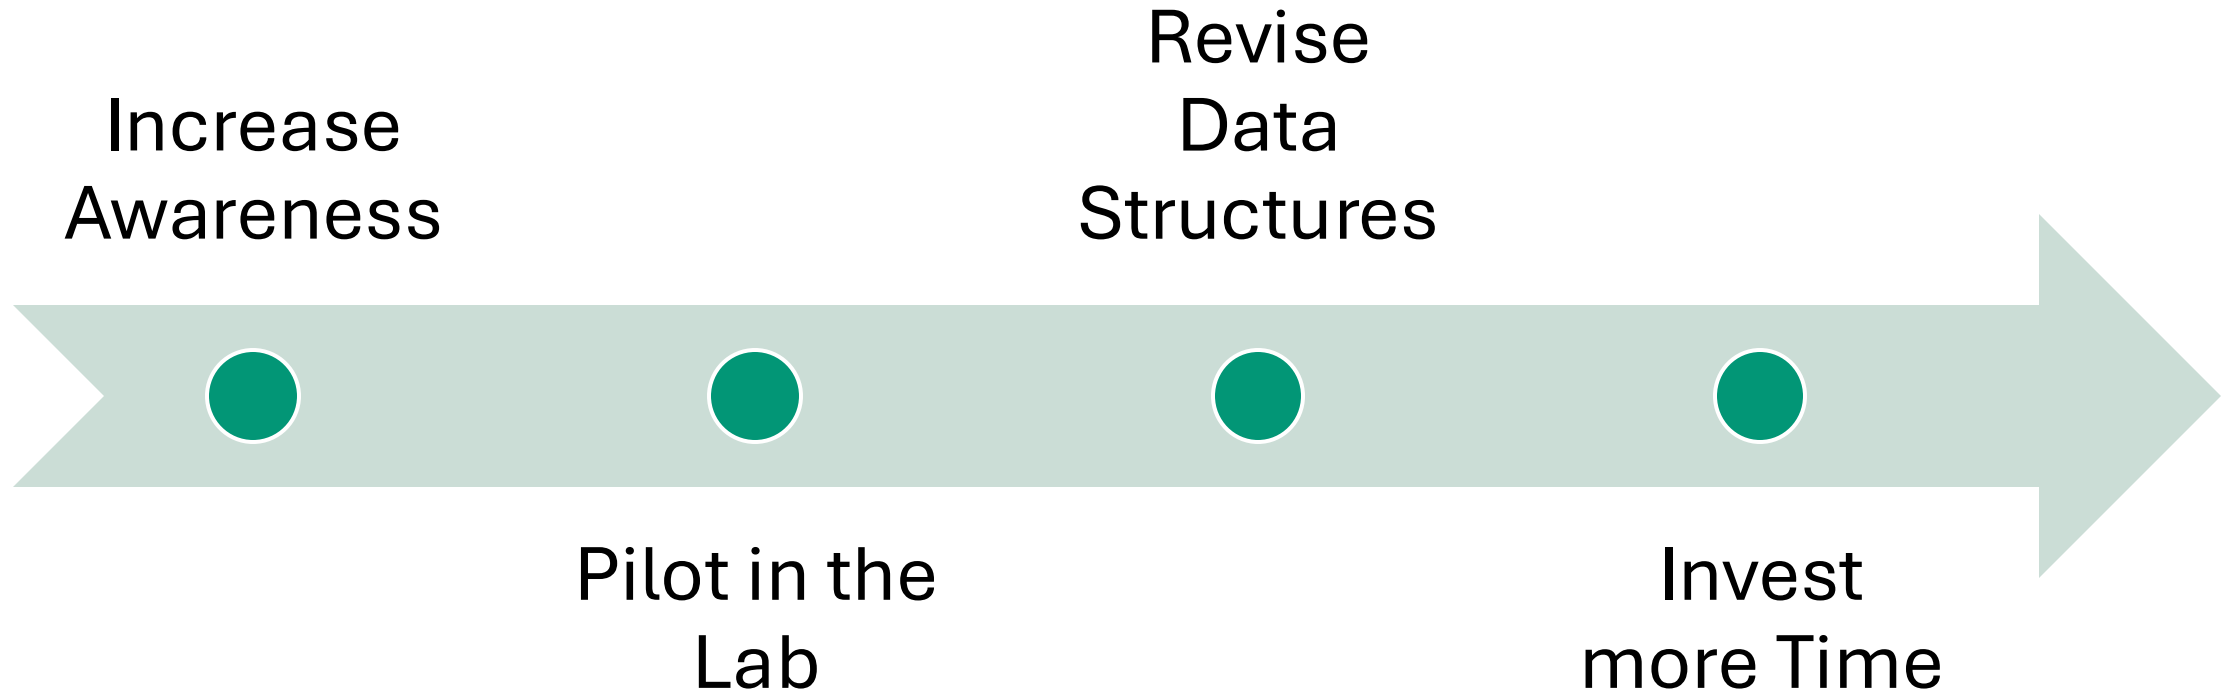

Lack of Interest

# What are the main takeaways?

# What has changed for me since then?

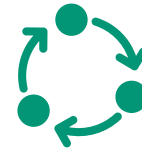

# Future Plan

Promote understanding  
of scientific processes

Stronger involvement of  
more parties

Rethink the way for  
good science

Creation of incentives  
for all parties

Thanks to Larissa, Malika and  
the MPDL for organizing such  
great and important sommer  
school!
