# Impact Factor and SASE's annual prize

In 2012, *Socio-Economic Review* received its first Impact Factor: we are proud that *SER* attained a strong 1.78. It ranks 11<sup>th</sup> in Political Science and 15<sup>th</sup> in Sociology. We thank all those who have contributed to the success of *SER*, and ask for your continuing support to make it flourish in future years as well.

It is also a great pleasure to announce that SASE's prize for the best article published in 2011 has been awarded to *Daniel Oesch* and *Jorge Rodríguez Menés* for their paper 'Upgrading or polarization? Occupational change in Britain, Germany, Spain and Switzerland, 1990–2008' (*SER* 2011, Issue 3). The prize of 1,000 dollars was presented at the SASE 2012 Annual Meeting in Cambridge, MA. Congratulations!
