Equation (11) of this paper should be given by

$$|c_{\ell m}|^2 = [(\lambda + 2)^2 + 4mqM\omega_m - 4q^2M^2\omega_m^2](\lambda^2 + 36mqM\omega_m - 36q^2M^2\omega_m^2) \\ + (2\lambda + 3)(96q^2M^2\omega_m^2 - 48mqM\omega_m) + 144M^2\omega_m^2(1 - q^2).$$

The factor $4mqM\omega_m$ in the first square bracketed expression is missing the factor m in the published version of this paper. This equation is correctly implemented in the code used for the work reported in this paper.
