1. In p. 382, after Eq. (2), the function \hat{w} should depend on $(X, \partial\Phi)$, respectively (X, H^{BC}) rather than $(\Phi, \partial\Phi)$ resp. (Φ, H^{BC}) .
2. In p. 383, paragraph between Eqs. (5) and (6): the sentence “Homogeneity means that \hat{w} is independent of Φ ” should read “Homogeneity means that \hat{w} is independent of X ”.
3. In p. 383, Eq. (7), after Eq. (8) and in Property 1: the first argument of $\hat{\sigma}_i^A$ should again be X .

These errors do not affect the rest of the paper.
