# Author Correction: The oomycete *Lagenisma coscinodisci* hijacks host alkaloid synthesis during infection of a marine diatom

Marine Vallet , Tim U.H. Baumeister , Filip Kaftan, Veit Grabe , Anthony Buaya, Marco Thines, Aleš Svatoš  & Georg Pohnert 

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-019-12908-w>, published online 30 October 2019.

The original version of this article contained an error in the chemical nomenclature of compound 4-CTC in the abstract and the results section, which incorrectly read ‘4-carboxy-2,3,4,9-tetrahydro-1H- $\beta$ -carboline’. The correct name for compound 4-CTC according to IUPAC nomenclature is ‘2,3,4,9-tetrahydro-1H- $\beta$ -carboline-3-carboxylic acid’. This has been corrected in the PDF and HTML versions of the article.
